### DETAILED ACTION

1. Information Disclosure Statement filed on 4/2/02 has been received. Information Disclosure Statement filed on 1/14/03 has been received.

### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Thomas (WO 98/12089) in view of Voss (DE 4219101 A1).

Thomas discloses:

See figure 4, valve 32, dryer 34, reservoir 50

Thomas does not disclose purging the air dryer when the engine is stopped. Voss teaches purging the air dryer when the engine is stopped (see attached partial translation and Derwent abstracts). It would have been obvious to one of ordinary skill in the art at the time the invention was made to purge the air dryer as taught by Voss in the system of Thomas in order to ensure proper operation on start up of the vehicle.
